## **REACH-statement – Rev. 02/2023**

Referring to the **REACH-regulation (EG1907/2006)**,  
**EU-regulation (EG) 2017/1510** from 30.08.2017,  
the revised **RoHS\*\* - regulation 2011/65/EU** and **2015/863**

We only produce print products and are not a manufacturer of chemical products. As a downstream user within the meaning of the REACH-regulation we are only using materials and excipients that are legal in the market and properly registered according to the REACH-regulation.

The EU-suppliers are obligated (article 33 REACH-regulation) to inform us unsolicited and undelayed if a delivered product contains more than 0,1 mass percent SVHC-substances. As a user we have the same obligation to tell our customers if a suppliers gives us notice about SVHC-substances in their delivered products.

In the interest of increased product safety and the protection of our employees we are following the obligations of article 33 REACH-regulation with a high level of responsibility. We are in close contact with our suppliers regarding to the SVHC-substances. Furthermore we are only using inks from suppliers which are obligated to follow the raw material exclusion list from the European Printing Ink Association (EuPIA), which bans all SVHC-substances listed by the EU.

Our labels do not contain any „substances of concern“ in concentrations which require an registration in „preparations/article“. ANNEX XIV (REACH-regulation) publishes in the current version of the European Chemical Agency (ECHA).

The list from 17.January 2023 contains 233 substedced/substance groups. None of these substances are in our adhesive materials with a higher concentration than 0,1 mass percent.

### **RoHS-conformity – guideline 2011/65/EC and 2015/863/EU**

We deliver RoHS-compliant according to the conformations of our suppliers and confirm this on our delivery notes and invoices.
